

ATD2 Remote Demo (3/14/18) Chat Transcript

Michael Tsairides: Welcome all, for audio, please dial into the toll-free telecon line: 1-844-467-6272, Passcode: 592382#

Michael Tsairides: Friendly reminder, please mute your computer speakers. Also, when you're not speaking, mute your phone/tablet.

Jose Ortiz: Will the audio still be available via computer? I am on an iPad, and would prefer that audio

Michael Tsairides: Yes, the audio is being fed into Adobe Connect and is available via computer/tablet

Michael Tsairides: If you decide on dialing into the telecon line, please mute your computer speakers.

Dayal Nagasuru: Is it possible to mute everyone and let people unmute as needed?

Jose Ortiz: Certainly, will do

rchong/mitre: "mute your speakers"? you mean "mute your mic" right?

Michael Tsairides: Yes, I've muted some of the lines accordingly. We'll open them back up during the Q&A session. However, the instructions were not to implement a global mute.

Michael Tsairides: The audio is being fed into Adobe Connect, so if you've dialed into the telecon line we ask you to 1.) mute your computer speakers and 2.) mute your mic via phone/tablet when not speaking

rchong/mitre: ah, got it; only applies to dial-in.

Michael Tsairides: Correct

Sandeep Badrinath: When did Bank 3 metering start (is there any specific date)?

Hanbong Lee: Bank 3 metering began since 2/19/2018.

Sandeep Badrinath: Thanks Hanbong.

Michael Tsairides: Participants, just a reminder, if you'd like a local full screen view of the slides, click on the four arrows at the top right of the box/pod containing the presentation slides.

Tom Reynolds: Are you using EOBT from the TFMS feed or an internal feed from AAL?

Shivanjli Sharma: We are using EOBT information from TFMS from AAL as well as other airlines

Tom Reynolds: Thanks, so it is the same EOBT data AAL is publishing to TFMS?

Shivanjli Sharma: That is correct, there is a TFDM service in TFMS that we subscribe to in order to ingest these EOBTs

Shivanjli Sharma: From AAL, Delta, JBU, and others as they begin producing this data

Tom Reynolds: Got it, many thanks.

Michael
